With your left hand
push tab up.

While still holding tab,
squeeze prongs of bait
cartridge and pull it away
from station.

2 LOAD BAIT

Place bait into cartridge.

Push cartridge into station
until it clicks into place.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION: Bait contains harmful if swallowed. Keep away from children,
domestic animals and pets. Any person who retrieves carcasses or unused
bait following application of this product must wear gloves.

USER SAFETY REQUIREMENTS: As soon as possible, wash hands thoroughly
after applying bait and before eating, drinking, chewing gum, using tobacco,
or using the toilet.

FIRST AID HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED:

- Call a poison control center, doctor, or 1-877-332-0755 immediately
for treatment advice.

- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control
center or doctor.

IF ON SKIN:

- Wash with plenty of soap and water.

TREATMENT FOR PET POISONING

If an animal eats this bait, call a veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison bromethalin. This product is not an
anticoagulant type rodenticide. For humans or animals ingesting bait
and/or showing poisoning signs (such as muscle tremors, loss of hind
limb use, or seizures for animals), limit absorption by other animals or
gastric lavage. Sublethal symptoms, if present, would be the result of
cerebral edema and should be treated accordingly through
administration of an osmotic diuretic and corticosteroid.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish, birds and other wildlife. Dogs, cats
and other predatory and scavenging mammals and birds might be poisoned
if they feed upon animals that have eaten this bait. Do not apply directly to
water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent
with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and
use precautions. Use only for the sites, pests and application methods
described on this label.

USE RESTRICTIONS:

This bait station may be used in areas accessible to children and pets,
consistent with all use restrictions and other requirements indicated on this
label. Do not apply further than 50 feet from home or building.

For control only of house mice. This bait station can only be refilled with the
block bait sold with this station. This product must be used in and around
buildings consistent with all use restrictions and other requirements
indicated on this label. Do not place this bait station or stored block bait in

any area where there is a possibility of contaminating food or surfaces that
come into direct contact with food. Store bait block refills out of reach
of children and pets.

SELECTION OF TREATMENT AREAS: Determine areas where house
mice will most likely feed and consume the bait. Generally, these areas are
along walls, by grooved openings, in corners and concealed places.

APPLICATION DIRECTIONS:

While wearing gloves, place one block of bait in the bait station. See
additional GRAPHICS AND TEXT. Place the bait station at point of highest
activity along a wall or in corner where signs of house mice have been seen.
If additional units are to be used, place bait stations at 8- to 12-foot
intervals. To monitor for refilling, view bait via see-through lid. While
wearing gloves, replace the block of bait if it has been consumed or
contaminated and house mice are still using the bait station. Note: Mice will
eat a small amount of bait and leave the station. You likely will not find a
dead mouse in the station. While wearing gloves, replace bait in bait station
if bait is consumed or contaminated and house mice will use the bait
station. Maintain an uninterrupted supply of fresh bait for at least 15 days
or until there no longer are fresh signs of house mouse activity in infested
areas.

Follow-up: Wearing gloves, collect and dispose of any leftover bait or
carcasses. To discourage reinfestation, eliminate food, water and harborage
as much as possible. If reinfestation does occur, repeat treatment.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store only in original container in a cool,
dry place inaccessible to children and pets.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:
Hazardous Waste Disposal: Do not reuse or refill container except as
described in the Directions for Use. If empty: Place in trash or
offer for recycling if available. If partly filled: Call your local
solid waste agency for disposal instructions. Never place unused
product down any indoor or outdoor drain.

Notice: To the extent consistent with applicable law, buyer assumes all risks
of use, storage or handling of this product not in accordance with directions.

-Tomcat Brands Guarantee: If for any reason you, the
consumer, are not satisfied with this product, mail us your
original proof of purchase to obtain a full refund of your
purchase price.
